

Tuesday, January 22, 2019

7:30AM - 4:00PM

BREAKFAST, LUNCH AND REFRESHMENTS INCLUDED

MISSISSAUGA GRAND
35 Brunel Road, Mississauga

OVERVIEW

Many municipalities have collected a large amount of CCTV data on sewers and manholes. However, they often struggle to use the inspection data to answer three fundamental questions: What assets should be fixed? When they should be fixed? How they should be fixed? Join us for this brand new workshop to help municipalities identify appropriate renewal techniques based on the condition assessment data. Attendees will learn about the tools to aid data management and decision making. Furthermore, benefits and limitations of various sewer pipe rehabilitation techniques will be discussed.

SCHEDULE*

7:30	8:00	Registration and Breakfast
8:00	8:30	Introduction - What do I do with my Inspection Data?, <i>Tanya Stephens, TDS Consulting</i>
8:30	9:00	Using Condition Assessment Data for Deterioration Modeling and Forecasting Future Condition of Sewers, <i>Rizwan Younis, University of Waterloo</i>
9:00	9:30	Case Study: Report Actions Based On Custom Decision Making Process Programs, <i>Joe Grieci & Harry Krinas, City of Hamilton</i>
9:30	10:00	Assigning Rehabilitation based on CCTV Data, <i>Jayne Harris, Jacobs</i>
10:00	10:15	Networking and Coffee Break
10:15	10:45	Using Software to Map, Identify Priorities and Assign Rehab to Alleviate Staffing Constraints, <i>James Burn, GM BluePlan</i>
10:45	11:15	Rehabilitation of Sewers and Laterals Using CIPP, <i>Kevin Bainbridge, Robinson Consultants</i>
11:15	11:45	Other Lining Methods and when it Would Be Advantageous to Use Them, <i>Rizwan Younis, University of Waterloo</i>
11:45	12:45	Lunch
12:45	13:15	Point Repair – A Necessary and Cost Effective Tool in the Trenchless Tool Box, <i>Michael O’Toole, FERNCO</i>
13:15	13:45	PVC Fold & Form Liner For Sewer Rehabilitation, <i>Alex Sandovski, IPEX Inc.</i>
13:45	14:15	Sewer Grouting - Resolving Infiltration, <i>Marc A Anctil, Logiball Inc.</i>
14:15	14:30	Networking and Coffee Break
14:30	15:00	Pipe Maintenance: Cutting, Reaming, And Flushing, <i>Patrick McGee, Joe Johnson Equipment</i>
15:00	15:30	Link Pipe And Seals for Fixing Separated and Offset Joints, <i>Lembit Maimets, Link-Pipe Inc.</i>
15:30	16:00	Spray Liners in Sewers, <i>Gord Henrich, P.I.T.A.</i>

* Subject to modifications

THE CENTRE FOR ADVANCEMENT OF TRENCHLESS TECHNOLOGIES

(CATT) was established in 1994 to help municipalities address their buried infrastructure challenges using new and less disruptive trenchless construction methods and infrastructure asset management practices.

Since 1994 CATT has been recognized as an international leader in buried infrastructure construction, condition assessment, renovation and asset management.

Refund Policy: please visit www.catt.ca for details on CATT's refund policy.

For more information on CATT and member benefits visit www.catt.ca.
