- *Ralph Haas*, Director Emeritus, University of Waterloo
- *Yehuda Kleiner*, NRC Representative, National Research Council

Interest in participating in CATT Committees

CATT success to date has been due to membership support and participation. Without CATT members, we would not have been able to meet our mandate for trenchless technologies promotion and education through events such as workshops, seminars, courses, training of highly qualified personnel, and other.

CATT is also soliciting volunteers to participate on its committees. Current committees are listed below.

CATT Committees:

1. **Technical** - The Technical Committee is building a format for trenchless technology information and assists in the development of technical specifications. A number of subcommittees have been established in the past to focus on the development of various Ontario Provincial Standard Specifications (OPSS).
2. **Seminar** - The Seminar Committee's goal is to promote awareness of trenchless technology in the industry through seminars, workshops and other forums where knowledge can be shared.
3. **Public Relations** - The Public Relations Committee maintains a public image through the management of information between CATT, governments, and the public. PR activities, promote CATT programs, raise the profile of CATT and increase exposure by the use of press releases, articles, newsletters, website, emails etc.
4. **Conferences** - The Conferences Committee coordinates and organizes CATT conferences such as the Trenchless Road Shows and Underground Infrastructure Research Conferences. Activities include arranging technical programs, exhibition and marketing.
5. **Education/epCIP** - The Education/epCIP Committee is developing an education program for Civil infrastructure practitioners. The initial focus of this program is to develop a diploma program through the delivery of university level courses in underground infrastructure. The Education Committee also is responsible for other trenchless training programs.
6. **Membership & Marketing** - The Membership & Marketing Committee oversees the status of CATT memberships, reviews membership needs, assists in marketing and promoting awareness of CATT and disseminates information to CATT members.

If you are interested in participating in CATT committees or subcommittees please complete the following and fax it to (519)-746-6556 or e-mail it to catt@uwaterloo.ca.

Name	Committee or Subcommittee of Interest

CATT is constantly evolving and redefining its ability to meet its members' needs. If you have comments, suggestions or concerns, please contact the CATT Office at (519) 888-4770 or e-mail us at catt@uwaterloo.ca. We welcome feedback.

Thank you for your interest and continued support for the *Centre for Advancement of Trenchless Technologies*.
